

B. BHARATH KUMAR

Location: Holagunda, Andhra Pradesh

Phone: +91 6305414247

Email: bharath94.boggur@gmail.com

CAREER OBJECTIVE

Motivated Computer Science Engineering student specializing in Artificial Intelligence & Machine Learning with a strong Diploma background in CSE. Skilled in Python, Java, MySQL, and real-time computer vision applications. Seeking an entry-level software or AI development role to apply hands-on project experience in object tracking and AI workflows to drive practical technical solutions.

EDUCATION

Bachelor of Technology (B.Tech) – CSE (AI & ML)

Present (2nd Year)

Bheema Institute of Technology and Science, Adoni

Diploma in Computer Science & Engineering (CSE)

2023 – 2026

Bheema Institute of Technology and Science, Adoni | Aggregate: **71%**

TECHNICAL SKILLS

Languages: Python, Java

Web Technologies: HTML, CSS

Databases & Tools: MySQL, GitHub, VS Code

Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)

Domains: Artificial Intelligence (AI), Machine Learning (ML), Computer Vision

PROJECTS

Social Distancing Detection in Real Time with AI

- Designed and implemented a real-time computer vision pipeline to monitor social distancing parameters using live video feeds.
- Utilized the **YOLOv3** deep learning algorithm for high-accuracy human detection across video frames.
- Integrated the **SORT (Simple Online and Realtime Tracking)** framework to maintain continuous tracking of individuals across successive frames.

EXPERIENCE & INTERNSHIPS

Industrial Intern

Nov 2025 – Apr 2026

Bheema Institute of Technology and Science (in association with 360DigiTMG), Adoni

- Completed an intensive 6-month hands-on industrial internship focused on practical machine learning workflows and software execution.
- Gained hands-on experience in data preprocessing, software deployment environments, and model training methodologies.

WORKSHOPS & CERTIFICATIONS

- Machine Learning Workshop:** Attended hands-on technical workshop on foundational ML algorithms and practical model implementations (Oct 2025).
